**Step 5:** Remove the battery strap screws (2) with the T5 Screwdriver and remove the battery strap. Unplug the battery from its connector. Remove the battery and add the replacement battery at the location shown (see above picture) and position the wiring similar to the routing shown. Plug the battery into its mating connector and reverse the steps noted above to complete the reassembly.

Battery strap

## Battery Replacement and Disposal Instructions (Reference):

Batteries contain chemicals that, if released, may affect the environment and human health. Batteries should be collected separately for recycling, and recycled at a local hazardous material disposal location adhering to your country and local government regulations. To find a battery recycling drop-off location, please contact local waste disposal service or the product representative.

The battery or batteries used in PASCO products are marked with the European Union symbol for waste batteries (above) to indicate the need for separate collection and recycling. For small batteries, the symbol is printed on the packaging.
